I was first introduced to HMEA by my grandmother who was having cataract surgery with Dr. Mizoguchi. After one of her pre-op appointments she called me up and told me, "Susie, you need to go down to that office and drop off a resume; they need you!" So I did just that and boy it has been one of the best decisions I have ever made. I started as a receptionist at HMEA and then transitioned to be a scribe and now an ophthalmic assistant. The growth I have experienced while working here and the knowledge I have received from my coworkers and the doctors at the practice is remarkable. I truly do learn something new every day that helps me to better assist both the patients and the doctors. That is one of the many reasons I love being part of this team. The staff at HMEA are like family; not only do we work together, but we maintain close personal relationships as well. We even vacation together! I believe this is something that translates to our patients and that they appreciate the love and friendship that radiates in the office. I love what I do, who I work with, and who I work for-you the patients. I am very grateful to work in such a welcoming environment and a unique and interesting field.
