My first introduction to HMEA was attending an appointment with my mother. After 28 years in the insurance industry, I was ready for a new direction. As an observer at the appointment, I was able to experience the positive atmosphere and demeanor of the office and staff. Once I met Dr. Mizoguchi, I realized his professional and caring manner set the tone of the office. Every patient is important to him and each and every one is treated with empathy, concern, and respect.

This experience peaked my interest, and I thought that I would enjoy working with Dr. Mizoguchi and his staff. Today, I am happy to call HMEA my home. I enjoy my job working the front desk. I have the opportunity and privilege of building a relationship with each patient. I am proud to be part of a team that is led by such a positive, caring, and knowledgeable leader. There are various paths available with HMEA, and I am excited about the opportunities available as I take this journey. I am excited about the direction Dr. Mizoguchi is heading with his advanced knowledge and technology and am proud to be part of the experience.
